RAM® MOUNT MOTORCYCLE CATALOG

GPS | MP3 | XM RADIO | AQUA BOXES | DRINK CUP HOLDERS | SPOTLIGHT | CAMERAS

RAM is the revolutionary universal ball and socket mounting system that allows you to mount practically anything anywhere. Unlike other motorcycle mounts on the market, RAM allows you to mount GPS devices, MP3's and XM Radios where you need them most. Whether its on a Goldwing or Harley, RAM's family of more than 1500 interchangeable mounting accessories will offer you solutions to your most challenging mounting problems. RAM Mounts are unique in design, providing easy installation, mobility, strength, versatility, vibration protection and durability, all at a low cost. RAM Mounts are backed by NPI's renowned Lifetime Warranty which makes them the mounting systems of choice. To provide light weight strength and corrosion resistance, RAM Mounts are made of marine grade aluminum with a powder coated finish, stainless steel hardware and rubber balls. Recognized and accepted by the U.S. Patent Office, RAM is the only universal ball-and-socket system that holds tremendous amounts of weight in high vibration applications for military, commercial and private use. Look further into our web site and see the newest mount products and learn more about this revolutionary mounting system that is quickly becoming the industry standard. Remember when faced with a difficult mounting situation, Just RAM It!

Both are included to complete STEP 3

RAM-HOL-UN4U

DESCRIPTION:
RAM 1" ball with diamond base, connects to cradle.

DESCRIPTION:
RAM universal finger grip holder, optimal for cell phones and radios.

The universal finger grip holder has four flexible rubber coated fingers placed along sides to grip your device. The fingers open by squeezing the ends to open the small finger arms. The bottom of the holder includes a back plate that adds support to the device being held by the mount.

RAM-B-132BU

DESCRIPTION:
The self-leveling drink cup holder.

The holder is hinged at two points to a holding frame. The hinges allow the cup holder to stay level no matter how much the holding frame tips.

RAM-B-202AU

DESCRIPTION:
Universal RAM camera base

The Universal camera base has a 1" diameter rubber ball connected at right angles to a 2.5" diameter base with a centered 1/4"-20 thread. The base adds support to the thread, by allowing the camera to rest on the plate, creating a stable connection with the camera.

Note:
The male 1/4" long, 1/4"-20 thread in the middle of the 2.5" diameter base will connect to the standard female thread found at the bottom of most still and video cameras.

NOTE: Unless stated, the RAM-B-238U (diamond) is the only adaptor that will attach to RAM cradles. The RAM-202U (round base) is the only adaptor that will attach to the Aqua Boxes and RAP-300-1 (radar detector) mount.

STEP 3: CHOOSE ADAPTOR & OR MISC MOUNT

RAM-B-202U

Both are included to complete STEP 3
